Office Action Summary

Application No.

09/921,010

Applicant(s)

CHRISTIANSON ET AL.

Examiner

Greta L. Robinson

Art Unit

2167

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 19 July 2004.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 1-73 is/are pending in the application.
- 4a) Of the above claim(s) 1-21 and 50-73 is/are withdrawn from consideration.
- 5) ☐ Claim(s) _____ is/are allowed.
- 6) ☒ Claim(s) 22-49 is/are rejected.
- 7) ☐ Claim(s) _____ is/are objected to.
- 8) ☐ Claim(s) _____ are subject to restriction and/or election requirement.

Application Papers

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☒ The drawing(s) filed on 01 August 2001 is/are: a) ☐ accepted or b) ☒ objected to by the Examiner.
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

Priority under 35 U.S.C. § 119

- 12) ☐ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
- a) ☐ All b) ☐ Some * c) ☐ None of:
1. ☐ Certified copies of the priority documents have been received.
 2. ☐ Certified copies of the priority documents have been received in Application No. _____.
 3. ☐ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).

* See the attached detailed Office action for a list of the certified copies not received.

DETAILED ACTION

1. Claims 1-73 are pending in the present application.

Election/Restrictions

2. Applicant's election with traverse of Group III claims 22-49 in the reply filed on July 19, 2004 is acknowledged. The traversal is on the ground(s) that the claims are directed to patentably distinct inventions and that all claims relate to storing of semi-structured data [note Applicants remarks filed July 19, 2004 page 2]. This is not found persuasive because the statement that the claims are patentably distinct confirms that the restriction is proper. Also, Applicant states that all claims relate the storing of semi-structured data is not accurate. Note independent claim 1, Group I, does not include a limitation about the storage of data; but rather is concerned with mapping the information. While Group III claims require generating a structured organization to store a collection of semi-structured data or generating a semi-structured data organization for a collection of structured data.

The requirement is still deemed proper and is therefore made FINAL.

3. This application contains claims 1-21 and 50-73 drawn to an invention nonelected with traverse in Paper No./Mail Date July 19, 2004. A complete reply to the final rejection must include cancellation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.

Drawings

4. The drawings are objected to because of the partial views in figure 3 and 7. Note 37 CFR 1.84(h). Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 101

5. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

6. Claims 22-25 and 36-39 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

Regarding claims 22-25 and 36-39 the language of the claims raises a question as to whether the claim is directed merely to an abstract idea that is not tied to a technological art, environment or machine which would result in a practical application producing a concrete, useful, and tangible result to form the basis of statutory subject matter under 35 USC 101. The method steps do not include hardware to accomplish the steps. The examiner suggests including language such as "a computer implemented method" to clarify that the steps are implemented by a computer.

Claim Rejections - 35 USC § 102

7. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

8. Claims 22-38 and 40-49 are rejected under 35 U.S.C. 102(e) as being anticipated by Gupta US Patent 6,539,378 B2.

Regarding claim 22, Gupta teaches a method comprising:

generating a structured organization to store a collection of semi-structured data [note: Figure 2A step 102; and Figure 2B]; and
collaterally generating a description of how the semi-structured data is stored under the structured organization [note: “generate a description file” step 104 Figure 2A].

9. Regarding claims 23-24, “generating descriptive entries ...” column 8 lines 49-64].

10. Regarding claim 25, “creating relational storage tables” [note: section 2.1 Defining a wrapper to collect information starting at column 10 line 35 through column 12 line 45]

11. Regarding claim 36, “generating a semi-structured organization for collection of structured data” [Figure 2A and 2B].

12. Regarding claims 37-38 , generating descriptive entries” [note: column 8 lines 49-64].

13. The limitations of claims 26-35 and 40-49 parallel claims 22-25 and 36-39; therefore they are rejected under the same rationale.

Claim Rejections - 35 USC § 103

14. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

15. Claim 39 is rejected under 35 U.S.C. 103(a) as being unpatentable over Gupta US Patent 6,539,378 B2 in view of Kasukawa et al. *A New Method for Maintaining Semi-Structured Data described in XML*.

Although Gupta teaches the invention substantially as applied to the claims above, regarding claim 39 he does not explicitly teach that the generation of a semi-structured data organization comprises an extensible mark-p language (XML) data structure. Kasukawa et al. teaches the use of XML for the generation of semi-structured data[note: page 258; Figure 1]. It would have been obvious to one of ordinary skill at

the time of the invention to have combined Kasukawa et al. with Gupta et al. because XML is a well known mark-up language for describing documents.

Conclusion

16. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Bhatt et al. US Patent 6,799,184 B2

Li et al. US Patent 6,697,818 B2

Fittges et al. US Patent 6,754,648 B1

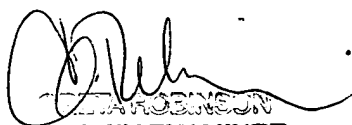

Lowry *XML Data Mediation and Collaboration: A Comprehensive Architecture and Query Requirements for Using XML to mediate Heterogeneous Data Sources and Targets*

17. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Greta L. Robinson whose telephone number is (571) 272-4118. The examiner can normally be reached on Mon.-Fri. 9:30AM-6:00PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, John E. Breene can be reached on (571) 272-4107. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Art Unit: 2167

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
